Education

Narula Institute of Technology, MAKAUT, Kolkata, India

B.Tech in Electronics and Communication Engineering

2023 - 2027

- CGPA: 7.56 / 10

Julien Day School, CISCE, India

- ISC Class XII - 80%

2022 - 2023

- ICSE Class X - 80%

2020 - 2021

Skills

Programming & Technical Skills: C/C++, Java, Python, Javascript, SQL

Backend & APIs: Node.js, Express.js, Fast API, REST API

Frontend: HTML, CSS, React.js

Tools and Platforms: Git/GitHub, VS Code, Dialogflow

Projects

KHARCHA – AI Powered Expense Tracker

2025

- Developed an application to analyse expenses and incomes and get AI-powered insights to manage incomes efficiently.
- Optimized MongoDB schemas and backend routing to process user data in under 200ms, while implementing modular Recharts analytics that reduced manual financial logging time by 30%.
- Developed using React.js, Node.js, Express.js, MongoDB, Tailwind CSS, Recharts, Axios, and Multer for secure multipart file and profile uploads.

SECRETS-APP – Anonymous Microblogging Platform

2024

- Developed a responsive, full-stack anonymous microblogging application featuring secure local and Google OAuth 2.0 user login, stateful session management, and a relational database backend.
- Hardened application security by implementing bcrypt password hashing with a work factor of 10 salts, while optimizing PostgreSQL indexing to cut query latency by 25% for real-time feed updates.
- Engineered with Node.js, Express.js, and PostgreSQL, utilizing Passport.js for OAuth, EJS for dynamic server-side rendering, and Bootstrap for fully responsive device styling.

Certifications & Achievements

- | | |
|---|-----------------|
| • Full Stack Web-Dev Certification by Udemy | Dec'2025 |
| • IIT KGP KSHITIJ'25 participant | Jan'2025 |
| • HACK-O-NiT KRITANJ'24 participant | May'2024 |
